ACADEMIC BACKGROUND

EPICODE course for Full-Stack developer

I attended a six-month course, thanks to which I learned the basics of Front-End and Back-End development. The last month of the course was dedicated to creating a website.

Secondary school

Diploma in Automation obtained at the Enrico Fermi Technical Institute in Rome, work experiences.

WORK EXPERIENCES

Managing an e-commerce website

I developed an e-commerce website using WordPress and a hosting platform for approximately six months. This experience provided me with a strong foundation in UI/UX design.

ABOUT ME

I am a young and dynamic 22-year-old Junior Front-End Developer, passionate about technology, sports, cinema, and video games. My educational journey in front-end development has equipped me with a solid skill set, but it has been my passion for sports since childhood that has fueled my unwavering determination to achieve ambitious goals. My creativity and problem-solving approach have always been my strengths, while my project organization skills allow me to maintain focus and productivity.
